

Arrow Dynamic Productions 2009

“Video Requirements”

- **Video Equipment:** We would prefer that all footage be filmed using any of the current 3-CCD digital camera technology available. (Our Pro-Staff currently uses Canon – GL1, GL2, and XL1 series)
- **Media:** All Captured footage for review must be presented on one of the following available digital video media (Mini-DV, DV and Solid-State SD).
- **Media Label:** All media that is received must be labeled with the following information: Species-killed, Time/Date along with County and State. We will require a copy of legal Tag # if used in production. (“Media Data Sheet”)
- **Camera Mount\Support:** All video camera equipment will be used with some type of support. This would include a Tripod or a Tree-mounted arm depending on the filming situation\environment. We “**do not**” accept hand-held footage this will be disregarded upon review. **NO EXCEPTIONS!**
- **Audio:** We require quality audio in all of our captured footage which can be obtained by using either a professional wireless Microphone system and or an External “shotgun” microphone setup. Again this will depend on your filming situation and surrounding environment.
- **Required Equipment:** “Lighted Nocks” (any brand or make available) are a requirement on all kill shots. Using lighted nocks will emphasize the kill shot to add the visual impact. Other hunting equipment is your choice. **NO EXCEPTIONS!**
- **Appearance:** We do recommend but do not require that you wear some type of “**ADP**” insignia (baseball cap would be fine) during any live interviews (hunting or B footage).
- **Conduct:** We will only accept live footage which is conducted in a mature and non-offensive way. We “**WILL NOT**” accept any footage with foul language, or reference to any type of racism. Also, we “**WILL NOT**” accept any footage with the reference or use of Alcohol or tobacco in any form. **NO EXCEPTIONS!**
- **Story Line:** Remember to tell a story with your footage. Try and video as much as you can to make the entire hunt/story real. Practice with all of your “B” footage as in interviews before and after the hunt to capture the moment.

“Media Submission”

All media received must be accompanied by a “Media Data Sheet” and a signed “Hunter Submission Form”. Please label each and all media with the label # that corresponds to this form (there are a few examples of entries below). Media will be disregarded if not turned in with a “Media Data Sheet” for our production staff to review.

Example:

<u>Media #</u>	<u>Date</u>	<u>Description - Species</u>	<u>Kill/Miss/Footage</u>
Tape-1	9/29/2009	Two does and nice buck. Long shot - Miss	Miss
Tape-1	10/3/2009	9 Pt buck quartering away kill in corn field	Kill
Tape-1	11/1/2009	2 big Tom's and a Jake in strut	Footage

Please enclose all media in bubble wrap or other protective coating to prevent damage. Included with the media, we will require a detailed “Media Data Sheet” and a signed “Hunter Submission Form” for review. These forms are “required” and without this information, media will be disregarded.

Send Media Package To:

Arrow Dynamic Productions
 Attent: ADP Media Review
 147 Glory Rd.
 Carrollton, Ohio 44615
